

New Vendor Registration Process

In an effort to promote efficiency, the Department of Technology and Information will no longer register vendors and maintain a mailing list to announce solicitations.

As of October 15, 2009, the Department of Technology and Information will utilize the Delaware Information Subscription Service (DISS) to inform vendors of solicitations.

All vendors, including currently registered vendors, must register for DISS at <https://diss.state.de.us/DWS/public.diss>.

This service works in conjunction with www.bids.delaware.gov, the State of Delaware's central website for RFP's, ITB's and RFI's.

Thank you for your interest in doing business with the Department of Technology and Information.

If you have any questions or comments please email Carmen Herrera at carmen.herrera@state.de.us.
